tion. The faith of the government's sup

motion.

The faith of the government's supporters that Congress will ratify the agreement is based upon the fact that the main consideration of the negotiators was to frame an agreement which could be put through both Congress and Parliament.

It is understood that the Canadian negotiators were always willing to accept the opinion of the American trade commissioners as to what Congress could be induced to accept.

The American commissioners are said to have adopted the same attitude as to what Parliament would accept, and the agreement is the result of careful conferences conducted upon this basis. It can be said that the Canadian government believes that Congress will give the agreement legislative sanction before March.

If this is done there will be disappointment, but not discouragement in Canada, as there is a conviction here that the agitation in the United States over the high cost of living and the important bearing of the agreement upon that question is bound to keep it in the forefront.

The great majority believes that the ratification of the agreement will produce a material prosperity and do no damages at all.

Comes as Surprise.

Comes as Surprise. London, January 27.—The scope of the reciprocity agreement between the United States and Canada, came as a

surprise to the British public. No one had expected so many changes to the free list or such important tariff reductions as the details of the proposed measure revealed. The reception of the agreement here,

however, is generally favorable.

Most of the high officials are on cations which will continue Parliament meets, and those in town would not be interviewed to-day re-garding the agreement. The Liberal orable to the proposed measure. Several officials pointed out to-day that under the agreement the United Kingoses some advantages hitnerto enjoyed under the American tariff, but that, nevertheless, the government is gratified at the Liberal party in Canada is achieving some measures of its

policy of give and take.
At the offices of the Canadian commission here, satisfaction was expressed at the outcome of the negotiations. Tariff reformers and strong imperial-ists, however, are not enthusiastic över The former consider that the proposed measure demonstrates that while the United Kingdom remains a free trade country, Great Britain cannot compete with foreign-ers for the trade of its colonies.

Fishermen Protest.

Gloucester, Mass., January 27.—Special sessions of the City Council, the Board of Trade and the Master Mariners' Association, the last two meeting jointly, were held to-day, at which the first steps were taken toward a united opposition to that part of the proposed reciprocity treaty which deals with fish.

At the meeting of the City Council At the meeting of the City Council resolutions of protest, prepared by Mayor Patch, were adopted. Copies of these resolutions, which declare that the proposed treaty is inimical to the welfare of Gloucester and other ports on the New England coast, which depend upon the fisheries, were forwarded to President Taft and Senators Lodge and Crane, and Massachusetts Congressmen.

The Board of Trade and Master Mar-

The Board of Trade and Master Mariners' Association named a committee of seven to consider the situation and devise a plan of procedure.

Means Cheaper Paper.

New York, January 27.—In the matter of the print paper and wood pulp provisions of the reciprocity agreement, John Norris, chairman of the committee on paper of the American Newspaper Publishers' Association, says the clause in the proposed reciprocity garangement with Canada is entirely satisfactory and will provide for the immediate entry of print paper and wood pulp from Canada, when made from wood cut from private lands. If ratified by Congress and the Canadian Parliament, the arrangement should reduce print paper prices materially and promptly.

PRISONER FIGHTS OFFICER

Ernest R. Terrell Offers Violent Resistance to Policeman Gary.

After a fight, in which both men were hurt and both bloodled, Policeman Gary, of the First District, last night succeeded in arresting Ernest R. Terrell, a bookbinder, who says he was born in Connecticut.

The officer found Terrell, it is alleged, drunk and acting disorderly at Ninth and Main Streets. He attempted to arrest the man, and the latter put up a fight. Both men fought to a finish—a finish for the bookbinder, who was finally subdued by the officers club, After being taken to the station a further charge of resisting an officer in the discharge of his duty was adoged against Terrell.
